- Intro to Woodworking, Machinery & Power Tools
- Intro to Metalshop: Welding, Powder Coating Machinery & Power Tools

DAY 2 9 AM - 3:30 PM

- Continued education on Introductory Courses
- Intro to CNC Machining & Role of Automation in Modern Manufacturing
- CNC Machine Demos: *Laser, Plasma, Router*
- Lunch Paired with Local Employer Networking
- Graduation Day

UPCOMING DATES

- TUESDAY, FEB 27 & WEDNESDAY, FEB 28 -
- THURSDAY, MAR 7 & FRIDAY, MAR 8 -

WHAT TO EXPECT

- Each course is a blend of instructor-led, demonstrative, and hands-on learning. At the conclusion of each course, students will receive a bootcamp certification of completion, an OSHA basic safety certification of completion, and a small graduation event.
- All programs will be held at Made In Johnstown, 507 Main Street, and will accept a maximum of 14 students. **Please bring a photo ID.**
- Day 2 will include a midday break with lunch provided. Local employers will join for a networking opportunity as they highlight relevant job openings in the area.
- Included in the conclusion of this program, students will receive a one-month daytime membership with equipment certifications (based on training) at Made In Johnstown, with an effective start date of the completion day of their program.

**To register for a course, please contact Dave Grimaldi
at (814) 262-8366 or dgrimaldi@jari.com**
