U.S. Department of Housing and Urban Development Office of Public and Indian Housing

OMB No. 2577-0226

Purpose. The 5 -Year and Annual PHA Plans provide a ready source for interested parties to locate basic PHA policies, rules, and requirements concerning the PHA's operations, programs, and services, including changes to these policies, and informs HUD, families served by the PHA, and members of the public of the PHA's mission, goals and objectives for serving the needs of low- income, very low- income, and extremely low- income families.

## Deconcentration and Other Policies that Govern Eligibility, Selection, and Admissions

## Deconcentration and Income Mixing

a. $\boxtimes$ YesDoes the PHA have any general occupancy (family) public housing developments covered by the deconcentration rule? If no, this section is complete. If yes, continue to the next question.
b. $\square$ Yes $\mathbb{V}$ No
Do any of these covered developments have average incomes above or below $85 \%$ to $115 \%$ of the average incomes of all such developments? If no, this section is complete.

## JOHNSTOWN HOUSING AUTHORITY DECONCENTRATION POLICY

It is the policy of the Johnstown Housing Authority to provide for deconcentration of poverty in its Public Housing Developments and encourage income mixing by attracting higher income families into lower income developments.

The Johnstown Housing Authority has reviewed all of the Public Housing Developments and it is determined that there is no concentration of families with higher incomes in any one area. All developments have average incomes below or at the Very Low Income Limits.

The Johnstown Housing Authority has determined that, in accordance with, 24 CFR Part 903, Rule to Deconcentrate Poverty and Promote Integration in Public Housing, the covered developments under this rule are Prospect, Oakhurst and Oakhurst Extension (contiguous site), Solomon, and Coopersdale Communities.

The Johnstown Housing Authority has reviewed and determined the average income of all families residing in all of the covered developments. The Authority then determined the average income of all families residing in each covered development. Each covered development has average incomes below $30 \%$ of median income. A determination was made whether each of the covered developments were above, within, or below the Established Income Range (EIR) determined by HUD as $85 \%$ to $115 \%$ of the PHA-wide average income for the covered developments. (See attached analysis EXHIBIT A) Each covered development is within the Established Income Range.

The housing authority will strive to achieve a distribution of incomes among its residents. The skipping of an applicant on the waiting list, to reach another family to implement this policy, shall not be considered an adverse action. This policy will be accomplished in a uniform and non-discriminating manner.

The Johnstown Housing Authority will affirmatively market our housing to all eligible income groups. Lower income residents will not be steered towards lower income developments and higher income residents will not be steered towards higher income developments. Marketing efforts will be designed to attract applicants from appropriate segments of the lower and very low income population. The Authority will use its marketing program to achieve a more representative income mix of lower income families among those on the waiting list and thereby attain a broad range of income in its communities.

The Johnstown Housing Authority may offer one of more incentives to encourage applicant families whose income classification would help to meet the deconcentration goals of a particular development. Various incentives may be used at different times, or under different conditions, but will always be provided in a consistent and non-discriminatory manner. Reasonable flat rents have been established as an incentive to attract higher income families.

The Johnstown Housing Authority will annually analyze the income levels of families residing in the required covered developments, as well as, each of our other communities.

Based on this analysis, we will determine the level of marketing strategies and deconcentration incentives to implement.

We indicated that the JHA would maintain an overall occupancy rate of $96 \%$ or greater over the next five years. Our occupancy rate for 2022 was $98 \%$. As of this writing, the occupancy rate for the period of January 1, 2023 through May 31, 2023 was $96 \%$. <br> Goal/Objective: Improve the quality of assisted housing by improving voucher management, SEMAP Score; concentrate on efforts to improve specific management functions; and renovate or modernize public housing units. We reflected that we would maintain "standard" or "high performer" status in SEMAP over the next five years; Maintain "standard" or "high performer" status over the next five years in PHAS and meet all obligation and expenditure dates established for Capital funds over the next five years. In addressing the goal of maintaining SEMAP "standard" or "high performer" status over the next five years (FY 2023-2027), we were designated as a "high performer" for FY 2022, the first score received since also being a "high performer" for FY 2019. In addressing the goal of maintaining PHAS "standard" or "high performer" status over the next five years (FY 2023-2027), we are currently designated as a "standard performer." To date, we continue to meet all obligation and expenditure dates established for our Capital Fund Programs. <br> Goal/Objective: Improve community quality of life and economic vitality by providing an improved living environment. We reflect that we will designate developments or buildings for particular resident groups (elderly, persons with disabilities.) In 2022, we submitted a request, which was approved by HUD, to renew our Designated Housing Plan for Fulton I. Connor Tower and Town House Tower for occupancy by elderly only. This designation will expire June 1, 2024. We will submit the same request in 2024 to continue the designation. |
